VOLUME TWO — THE GOLD CENTER — NEVADA CITY, NEVADA COUNTY, CALIFORNIA, — FEBRUARY 27, 1928 — NUMBER 15

MOHAWK LEASE MILLS $1050, 20 DAYS MURCHIE TUNNEL HITS HARD ROCK

Ben A. Bost has given a leasing bond to W. A. Sharp for $15,000 on the New Mohawk Mine situated in the Gold Flat Mining District.

Mr. Sharp has put up a four-stamp mill on the property. In a 20 day's run he has put through 60 tons from croppings or surface rock and cleaned up $1050 in the run. This metal was shipped Friday.

No work has been done on this mine since it closed several years ago from a cave-in in 1866 except assessment work.

In 1860 this mine was located as the Mohawk by the late Professor Muller and Henry Stede.

It was relocated in 1901 as the New Mohawk. They found rock 10 feet below water level that produced gold to the value of $100 per ton. Prof. Muller and partner gave up work on the claim because they found it much easier to follow the stream-bed and take out gold at a quicker rate. When they returned to relocate their claim they found some one else had filed upon it.

Copies of an old Transcript published in 1912 gave early history of the Mohawk Mine when it was worked in 1866:

"The Mohawk company have their shaft 150 feet below the surface where they have struck the ledge two and one-half feet thick. The rock is richer than any we have seen for a long time being, studded with particles of pure gold, from the finest perceptible particle to the size of a mustard seed. The rock has a rusty appearance and contains some fine looking sulphurets. The Mohawk claim is located on Gold Flat and was formerly known as the Stede lead. It was worked for some time and much money lost on it until it came into the hands of its present owners. They went to work, confident that the lead was rich, and knowing that it required considerable capital to develop the mine. For considerably more than a year they have been at work, and at an expense of nearly $10,000, they have succeeded in developing a rich mine.

One hunded tons of rock from the Mohawk ledge was crushed at Palmer's mill and a "clean-up" was made last Saturday. It is valued at about $10,000.

Last Sunday between 12 and 1 o'clock a heavy cave occurred in the Mohawk mine. An immense body of earth caved from the roof of the tunnel filling the mine and stopping operations. Seven or eight men were at work in the tunnel, but they were at dinner at the time of the cave, and consequently escaped. The mine is so effectually closed up that it will be necessary to sink a new incline before it can be worked. At the time of the accident the company was taking out excellent rock. The last clean-up they took out from $10,000 to $12,00".

STATION AND SUMP BEING CUT AT THE GRACEY MINE

With the shaft sinking completed 75 feet below the drain tunnel level a station and sump are being cut at the Gracey mine preparatory to running drifts on the vein and giving the property a thorough prospecting.

ALLEGHANY EL DORADO MAKES FIRST PAYMENT

The first payment on the Yellow Jacket mining properties at Alleghany was made the past few days and the property taken over by the Alleghany interests headed by Secretary of State Frank C. Jordan. B. A. Reber is in charge of operations at Alleghany and will actively commence development with the advent of spring.

MINING MAN VISITS

James Spears, mining man of Sutter Creek, was a weekend visitor at the A. S. Lord home. Mrs. Lord and Mrs. Spear are sisters. Also a house guest for the weekend was another sister, Mrs. Henderson of Oakland.

Directors of the Placer-Nevada Amateur Baseball League will meet in Auburn on next Monday to go over the matter of a schedule and make arrangements for the coming season.

Miss Irvina Tamblyn who is teaching at Santa Barbara has been ill in a hospital in thit city but her condition is not serious.

The new drain tunnel now in 430 feet at the Murchie Mine has encountered hard, tough granite requiring as many as sixteen holes to break; good progress however is being made in spite of this handicap and three shifts are now rushing the work to completion. It is expected that about three weeks more will be required to reach the shaft.

The new adit will be about 650 feet in length and will tap the shaft 190 feet below the collar.

At the Murchie Lease ore of good value is being milled by Messrs. Davidson and Weeks from the flat vein adjoining the Alice Belle on the north. There are a number of branches, or splits from this vein, part of which has been worked in early days. The old timers however evidently did not do much development beyond the vein they were following, consequently there are quite extensive areas where ore of good grade remains untouched and it looks as though the Murchie Lease has quite a long life ahead.

The Lease has produced some sulphide ore of exceptional value, the ordinary run of Murchie sulphides being around $200 per ton. Some of it, even the coarser cubes of half to three quarters of an inch across, are speckled with free gold, and will go over $5000 to the ton. Sulphides of such high value are found nowhere else in the district.

MAYFLOWER MINE SOLD MANY CHANGES CONTEMPLATED

The Mayflower Mine of this county was recently sold for cash. It comprises about 6,00 acres and is surrounded by the Baltimore, Excelsior and near the line of the Texas and Sacramento Mine.

About 1,800 foot of tunnel has already been drifted and expect to unraise sixty-five feet to hit channel. It is expected that a tunnel 200 feet will strike the Excelsior channel and give them 3,000 feet of channel.

Work will start as soon as the compressor and new machinery are installed.

WESTERN MERGER MILL STARTS IN 30 DAYS

With the battery boxes poured and the batteries in place, it is confidently expected that the new stamp mill at the Western Merger mine will go into commission in the next 30 days barring unforseen difficulties. This time of year it takes longer for the concrete to set thoroughly and no chances are being taken on having to tie once the mill is in operation.

MRS. ALEXINA GRISSELL IN A COMPLETE SELL-OUT

Mrs. Alexina Grissell is announcing in this issue of The Nugget, a complete sell-out of her stock of woman's goods of every description.

The sale is now under way and will continue until the stock is entirely disposed of. Thrifty housewives will do well to call at the store and see the many bargains which are being offered at great savings to the pocketbook. Mr. Percival Mills is in charge of the sale for Mrs. Grissell.

A. A. Codd, president and general manager of the Western Merger Mines, was a weekend visitor at the property from Reno.

A number of Boy Scouts took a hike around Sugar Loaf and the old Manzanita diggings yesterday afternoon.

Miss Dorothy Baker, daughter of Mr. and Mrs. Edw. J. Baker, has been nominated from the graduating class of the San Francisco State Teachers College for a position in the Oakland schools.

Miss Muriel Lucas and Joseph D. Tellam procured a marriage license the past week.

A Scout Master trainin cgourse is to be oered tonight and following two Monday nights in Masonic Temple.

Inspector W. J. Merrifield will conduct a school of instruction for the officers of Nevada Lodfe on Wednesday evening.

Court calendar is being called this afternoon.

Another storm looks to be brewing in the offing.

MADE TO ORDER MINES ARE INCORPORATED

The Made to Order quartz holdings near Graniteville have been incorporated under the laws of Nevada as the Reliance Placer & Quartz Mining Company. Five claims are involved in the deal and operations are expected to commence by April 1st if the weather is propitious.

Roy Kimball appears as president, Mrs. Kimball as vice president, J. L. Lewis of Gridley, secretary and Chang Miller, Fred Fink and Dr. James L. Bates, all of Gridley as directors.

Ground sluicing operations will be started on some of the gravel channel and another tunnel is to be driven to tap some of the vein system known to exist. A tunnel was run last year which developed some fine showings. The property is equipped with an air compressor and machine drills and there are plenty of camp buildings for housing the crew.

Four of the mining claims are in Nevada county and one in Sierra county.

PACIFIC GAS PLANS FOR LARGE EXPENDITURES

The construction program of the Pacific Gas and Electric Company for the coming year entails a proposed expenditure of $22,500,000, a considerable portion of which will be spent in the Drum division which embraces the activities in Nevada and Placer counties. The Spaulding No. 3 plant is to be built, a fourth generating unit at Drum power house near Alta, relining of the Drum canal and removal of temporary structures. Additional equipment in to be installed at the local gas plant.

With the prospect of cheaper juice for power purposes, the customers of the Pacific Gas have pleasant prospects ahead.

STOCKMEN GATHER AT THE BARNEGAT RANCH

INDIAN SPRINGS, Feb. 25—Stockmen from over Nevada county gathered at the Barnegat Ranch today to discuss the problem of making this county a tuberculosis free area. The principal speaker of the occasion was Dr. J. P. Iversen of the state department of agriculture who explained the procedure necessary.

ALLEGHANY SCHOOL HAS WASHINGTON PROGRAM

ALLEGHANY, Feb. 25 (Special to The Nugget)—Mrs. Tom Davies has returned to Alleghany after an absence of several months. She has been visiting her daughters in Nevada City and sister in San Jose while her husband has been in Redwood City. Mr. Davies is much improved in health.

Jesse Spinks broke a bone in his foot while working at the 16 to 1 mine.

A short program was given at the school in honor of Washington's birthday.

The following children have been perfect in attendance for the past month: Donald Winstead, John Berryman, Frederick Green, Dorothy Feagan, Anna LaMuth, Thelma Davey, Margaurite Berryman, Alta Winstead, Edgar Davey and Erle Winstead.

Mr. Mugford made a short business trip to Grass Valley this week.

Mr. Stewart of the Yellow Jacket made a business trip to Sacramento.

W. C. Clerkin was in from French Corral Friday night for the Elks doings.

C. A. Bennett was down from Alleghany for the weekend with his family.

L. H. Ballentine and R. C. Kennedy, camera men of the Oakland Tribune went through town Friday night enroute to the Yuba Pass to take pictures which will be used for publicity purposes in the paper later. They spent yesterday at Lake Vera taking photographs of the Mills College and Oakland Camp Fire Girls sites.

George A. Legg has been up from Berkeley for a few days.

NEW HOMES COMPLETED OTHERS ARE PROJECTED BUILDING BOOM SEEN

A building boom looks to be imminet in town this spring judging from the number of handsome new homes which are being completed at the present time and others which are contemplated. It has been many years since so many new homes were under way and it betokens an awakening interest in the desirability of Nevada City as a residence center.

Real estate agents report a brisk demand for houses of the better sort both for renting and for an investment and there are but few to be had. There are a number of properties about town that the owners could well afford to spend some money on and put them in a more presentable appearance, which would beautify the town and also make a more merchantable proposition.

One of the handsomest homes built in Nevada City in many years is the new residence being completed for Mr. and Mrs. Wade Armstrong on upper Nevada street. The magnificent opportunity for landscape gardening about the spacious grounds will make this one of the showplaces of the community when the ambitious plans of the owners have been fully realized.

The A. H. Tickell home at the head of Nevada street has been completed and presents an imposing appearance in exterior appearance as does the Raglan Tuttle home in the south portion of town, which is already occupied by its owners. The R. N. McCormack home on upper Broad street is exciting a great deal of admiration.

May the good work keep up.

HALE J. HOWE, ROUGH AND READY, SUICIDES

ROUGH AND READY, Feb. 24—Hale J. Howe, a resident of this section for nearly fifty years, took his own life yesterday, doubtless shooting himself with a 22 rifle through the abdomen. Coroner T. M. Harris was notified and the remains were removed to the Jefford parlors where an inquest will be held

Surviving are three sons, Clyde and George of this place and Carl of Oakland.

Funeral services were held Sunday afternoon from the schoolhouse and the Odd Fellows conducted services at the grave.

A deputy internal revenue collector is in town today for the purpose of assisting income taxpayers in making out their statements.

The Odd Fellow horseshoe tossers take on the Foresters at the Foresters hall tonight in the tournament play. Tomorrow night the Forestrs and the Native Sons tangle at Native Sons Hall.

Mr. and Mrs. Wm. Walsh have returned from a visit in San Francisco.

Miss Elma Hecker was operated on at the Nevada City Sanitarium on Wednesday for the removal of some small wires which had been used in joining bones in her shoulder injured in an accident several years ago. Dr. A. H. Tickell performed the operation.

The life estate of Elizabeth Dunkley, deceased, has been terminated by court action.

The Hegarty residence at Moores Flat has been purchased by the German Bar Mines Corporation and has been razed for its lumber which will be used this spring is erecting a camp at the mining properties at Snow Point.

Mr. and Mrs. T. W. Sigourney were Roseville visitors one day last week.

The Plaza Grocery is advertising some fine buys in canned fruits.

Andrew Jackson who was formerly in business here will be associated with the new Hotel Lenhart in Sacramento.

The application of the Truckee Utility District for validation of its bonds recently voted, was granted in superior court Tuesday by Judge Landis sitting for Judge Tuttle.

A regular old fashioned snowstorm was enjoyed for a few hours Thursday morning but it melted as fast as it came down.

Frank Murphy was down from Montezuma Hill Thursday on business.

SIPHON REPAIRS COST SAID AROUND $10,000

The following dispatch from Emigant Gap appeared in Friday's Colfax Record:

The repair work on the Nevada Irrigation District's new flume was completed last week and the large crew of men that was employed on the districts' work was returned to Sacramento. It is estimated that over $10,000 was spent on the project in les than two months.

(The work referred to is that on the siphon across Fall creek where it became clogged with anchor ice and a large footage went out. Ed.)

BISHOP MORELAND WILL VISIT HERE ON SUNDAY

The Very Rev. William H. Moreland, Bishop of the Diocese of Northern California of the Episcopal Church, will be in Nevada City at the morning service at Trinity church on next Sunday. A full choral communion will be given and a fine talk by the Bishop.

In the vening there will be confirmation at Emmanuel church in Grass Valley in the evening.

BIGELOW WILL SHOW PICTURES TO THE LIONS

President R. L. P. Bigelow will have a regular treat for the Lions at their Tuesday luncheon tomorrow noon in the shape of two reels of pictures entitled "Fruit and Forest," which are sent out by the Forest Service and are said as especially fine from an educational standpoint. Mr. Bigelow is showing them to the Rotarians at their luncheon in Grass Valley today.

SPECIAL LENT SERVICES ARE NOW BEING HELD

During the season of Lent there will be special daily masses at St. Canice's Catholic church. At Trinity Episcopal church there will be special Wednesday evening services at 7 o'clock during Lent.

Easter falls on April 9th this year.

County Treasurer Frank Steel was confined to his home last week by a slight illness.

Mrs. Henry Schaeffer of Davis was the recent guest of her parents, Mr. and Mrs. E. T. R. Powell.

E. R. Abadie from Siskiyou county where he has been engaged in mining.

Mr. and Mrs. E. J. Moomey have returned from a stay in San Bernardino county with their sons.

A new hydrant has been installed near the E. W. Schreiber home on upper Broad street.

JEFFORDS WILL PURCHASE CONGREGATIONAL CHURCH FOR LOCATION HERE

Following the exclusive announcement in The Nugget last week that the popular undertaking firm of W. R. Jefford & Son were preparing to enter the Nevada City field with a complete and modern service, this paper is privileged to state that negotiations for the purchase of the former Congregational church building on Main street are all but completed and all that remains to complete the acquisition of the property is the checking up of the title which is now being done.

Plans for the complete rehabilitation of the property are now ready to proceed. The Jeffords will spare no expense to give Nevada City a modern plant in every way. The rebuilding plans are quite elaborate. They include a chapel 30 by 18 feet in size, a show room 30 by 14, and other accoutrements.

The front entrance will be double French glassed doors opening into a lobby ten feet wide. At the right end of the lobby will be Mr. Jefford's offices, with the show room to the rear. To the rear of the show room will be the operating room. At the left end of the lobby will be a charmingly appointed reception room with sanitary conveniences. There will be a private room for the family adjacent to the chapel and after the services are concluded, the remains will be taken through a side exit and the famiiy will be permitted to leave through that entrance which will prove an attractive innovation.

The high ceilinged auditorium is to be made into two stories and the upper floor will later be made into living rooms. The building adapts itself admirably to the rebuilding plans throughout. Once the title matter is cleared up, the work will be rushed to completion.

Nevada City will welcome Rev. and Mrs. John Telfar, who have come here to make their future home. The home they have purchased will soon be remodeled to their satisfaction and will add to our city's pretty homes.

W. C. Allen, manager of the Excelsior Water and Power company, was here Friday from Smartsville.

J. R. Davies of North San Juan was a business visitor here the latter part of the week.

Charles Howlett of Lake City was a business visitor in our city Friday.

Frank G. Snook who is head of the state motor vehicle department was a Nevada City visitor Wednesday and called on Curtis Clark of the Service Garage while here.

Frank Davies has been visiting Thomas Davies who is ill in a hospital at Redwood City.

It was Past Exalted Rulers Night at the Elks Friday evening with the initiatory work being put on by the has-ebeenrs.

SOCIETY HAPPENINGS OF THE PAST WEEK OF VICINITY

DEPUTY GRAND MATRON VISITS EVANGELINE CHAPTER

Mrs. Magdalena Eckhardt of Loomis, Deputy Grand Matron of the Eastern Star paid her official visit to Evangeline Chapter, No. 9, last Tuesday night and was warmly greeted by a number of members and visitors. A school of instruction was held in the afternoon and the ritual work was exemplified in the evening. Refreshments were served.

WALTER HEGARTY WEDS MISS JOSEPHINE MONCHAMP

Last Tuesday Mr. Walter Hegarty, son of Mrs. George W. Hegarty was united in marriage to Miss Josephine Monchamp of Roseville at the St. Canice's Catholic church, the mystic words being pronounced by the Rev. Father O'Reilly. A short honeymoon trip is being enjoyed after which the happy couple wil make their home in this city where the groom is employed by the state highway commission. The groom has been a resident of this city for a number of years and has a wide circle of friends who will join in wishing him and his brde every joy and happiness.

Mr. and Mrs. L. M. Fowler were up from Sacramento one day last week.

MISTRESS VIOLET GARWOOD IS HOSTESS AT PARTY

Mistress Violet Garwood entertained twenty of her classmates and rfiends on Friday afternoon at her home, it being the occasion of her natal aniiversary. Washington's Birthday formed the motif of the decorations an dthe refreshments. A very pleasant atfernoon was spent by the youngsters.

S. LEE LEITERS CELEBRATE SILVER WEDDING ANNVERSARY

Mr. and Mrs. S. Lee Leiter celebrated in a quiet way on Wednesday their twenty fifth wedding anniversary. They were the recipients of hearty felicitations from their many rfiends.

DR. CRAWFORD BOST WEDS AT SAN FRANCISCO

Dr. Crawford Bost, a native of Nevada City, wase married in San Francisco Friday evening to Miss Gwendolyn Sturm at the bride's home in St. Francis Wood, the ceremony being performed by the Rev. Henry Shires. The couple will spend some time in St. Louis where Dr. Bost is specializing in post graduate work. They will later live in San Francisco.

JOSEPH NORTHEY, AGED PIONEER HAS PASSED

Joseph G. Northey who for nearly sixty years had been a resident of this community passed away after a brief illness last Tuesday. Funeral services were held on Thursday afternoon and were largely attended by sorrowing friends.

Deceased was born in England in 1868 and came to Nevada City when but a year and a half of age and had resided here ever since. He conducted the Maltman reduction works for some years, disposing of the same later to Benj. Hall. He was a member of the Elks and the Odd Fellows. He is survivied by his mother and his wife and a son, Joseph of Roseville, and a sister, Mrs. Al Huson.

Mrs. John Macari was a visitor in Grass Valley Saturday. She visited with her little neice, Agnes Macari, who was bitten by a dog. The little girl is in a very serious condition.

"I've noticed," declares Lou Elkus "that the fellow who gets stuck on a second-hand car seldom sticks to facts when he's trying to sell it."

LEGAL NOTICES

SUMMONS
No. 5585

IN THE SUPERIOR COURT OF THE STATE OF CALIFORNIA, IN AND FOR THE COUNTY OF NEVADA.

ANNIE R. BYRNE, Plaintiff, vs JOHN A. RAPP, LILA CHAMPSION, as administrator of the Estate of JOHN SKEWES, Deceased, JOHN C. PHILLIPS, THE GOLD FLAT MINING CO., WILLIAM RUSSELL, BENJAMIN F. HAWLEY, E. J. ATKINSON, HELEN A. CROSS, THE ANGLO & LONDON PARIS NATIONAL BANK, a corporation of SAN FRANCISCO, and also all other persons unknown claiming any right ,title, estate, lien or interest in the real property described in this summons, adverse to plaintiff's ownership or any cloud upon plaintiff's title thereto, Defendants.

Action brought in the Superior Court of the State of California, in and for the County of Nevada, and the complaint filed in the office of the Clerk of said County of Nevada, in which said action Annie R. Byrne is the plaintiff and the persons hereinafter named as defendants, are defendants.

E, H. ARMSTRONG,
Attorney for Plaintiff.

The People of the State of California send greetings to John A. Rapp, Lila Champion, as administrator of the Estate of John Skewes, Deceased, John C. Phillips, The Gold Flat Mining Co., William Russell, Benjamin F. Hawley, E. J. Atkinson ,Helen A. Cross, The Anglo & London Paris National Bank, a corporation of San Francisco, and also all other persons unknown claiming any right, title, estate, lien or interest in the real property described in this summons adverse to plaintiff's ownership or any cloud upon plaintiff's title thereto, Defendants.

You are hereby directed to appear and answer the complaint in an action entitled as above, brought against you in the Sueprior Court of the State of California, in and for the County of Nevada, within ten days after service on you of this summons; if served within the county or in thirty days if served elsewhere.

And you are hereby notified that unless you appear and answer as above required, that said plaintiff will take judgment for any money or damages in the complaint arising upon contract or she will appiy to the Court for any other relief demanded in the complaint.

The following is a statement of the action:

The object of the action is to determine all and every claim, estate, lien or interest in the property hereinafter described; that the plaintiff is now and has been by herself and her predecessors in interest, the owner of and in the actual, exclusive and adverse possession of the property hereinafter described continuously for the period of more than twenty years immediately preceding the filing of the complaint in this action, claiming to own the same in fee against the whole wold, and that plaintiff has paid all taxes of every kind and nature whatever levied or assessed against said real property during the period of five years continuously immediately preceding the filing of the complaint aforesaid; that the claims or claims of said defendants is without right and that they have not, nor have either or any of them any right title or interest in said real property or any part or portion thereof:

The lands and premises affected by this action are situate in Nevada County, California and particularly described as follows:

All that portion of the Southeast quarter of Section Thirteen (13), Township Sixteen (16) North, Range Eight (8) East, Mount Diablo Base and Meridian, described as follows, viz.:

NO. 1: Beginning at a point on the Section line between Sections 13 and 24, Township 16 North, Range 8 East, Mount Diablo Base and Meridian, from which the Southeast corner of Section 13 bears N 89 deg. 33 min. East 862.40 feet and running thence, true meridian North 14 deg. 22 min. West 239.07 feet; thence North 66 deg. 04 min. East 191.98 feet; thence North 47 deg. 52 min. East 9.05 feet to the West side line of the Pittsburg Quartz Mine, Lot 39, North 4 deg. 24 min. West 296.85 feet from the [illegible] corner of claim 61.38 feet to a point; thence North 26 deg. 07 min. East 67.05 feet; thence North 16 deg. 18 min. East 17.63 feet ;thence North 11 deg. 16 min. West 107.89 feet; thence North 3 deg. 11 min. East 117.05 feet; thence North 13 degrees, 55 minutes East 313.39 feet to a point on the right of way of the Nevada County Narrow Guage Railroad, said right of way for the purpose of this description being 20 feet South of the center of the track and parallel thereto; thence North 67 deg. 30 min. West 20.00 feet to the center of railroad track; thence following track South 22 deg. 29 min. West 40.00 feet; thence South 20 deg. 44 min. West 175.44 feet; thence South 24 deg. 59 min. West 100.00 feet; thence South 40 deg. 21 min. West 100.00 feet; thence South 56 deg. 50 min. West 100.25 feet; thence South 72 deg. 43 min. West 100.00 feet; thence South 88 deg. 43 min. West 100.00 feet; thence North 75 deg. 02 min. West 100.33 feet; thence North 68 deg. 16 min. West 99.77 feet; thence North 70 deg. 19 min. West 99.86 feet ;thence North 80 deg. 59 min. West 100.00 feet; thence South 89 deg. 02 min. West 100.00 feet; thence South 87 deg. 44 min. West 462.10 feet; thence leaving railroad South 20 deg. 02 min. West 33.00 feet to a post on the East boundary of the Shanghai Placer Mine, Lot. No. 171; thence South 87 deg. 20 min. West 15.62 feet; thence South 1 deg. 29 min. East 58.98 feet; thence South 21 deg. 49 min. West 171.59 feet; thence South 2 deg. 18 min. East 86.65 feet; thence South 32 deg. 11 min. West 61.52 feet; thence South 12 deg. 00 min. CAMPTONVILLE GARAGE IS SOLD TO W. A. LAN

CAMPTONVILLE, Feb. 25, (Special to the Nugget)— William A. Lang, formerly of Oak Valley, recently purchased the garage business and equipment formerly operated by the C O D Garage and Machine Company, and is now doing business under the name of The Lang Garage.

Mr. Lang is one of the best known men in this section, having the reputation of being th ebest mechanic, having had years of valuable experience and work along that line, and is now capable and able of giving his patrons the value of this. The residents of this section are extremely glad to see Lang take hold of the local automobile business.

The local garage is one of the best equipped between Sacramento and Reno, having every kind of a machine and equipment for any sort of mechanical or automobile work. A large stock of assessories and repair material is kept on hand thereby giving the motoring public an excellent service.

The local people as well as those of nearby towns, welcome the new Garage for in the past, at his home, or on the road, many's the time that Bill's big smile has brought sunshine to many an automobilist's black cloud.

WINSMORE CHAPMAN HOST

Winsmore Chapman entertained a number of friends at the home of his grandparents, Mr. and Mrs. Peter Peterson, on Main Street, Friday evening.

The evening was spent in cards and other suitable amusements, and at a late hour, delicious, seasonable refreshments were served. The following were in attendance: William Groves, John Lord, Frank W. Meggars, William Wieland, Winsmore Chapman, Mesdames Claude Thomason, Lew Rose, Mr. and Mrs. Peter Peterson and Raymond Halkyard.

CAMPTONVILLE PERSONALS

Jack Wolff of Grass Valley accompanied by his mother and son, was in town Thursday on business.

Dethlefson Brothers of Pike City were in town Thursday and Friday they moved to Bullards Bar Dam where they are to be employed.

Mrs. William S. Gold thwait arrived Wednesday from Sacramento where she has spent the past several months with her husband who has been confined with illness, but who is now improving.

Mr. and Mrs. Laurel C. Ruff and family left Thursday for Oroville on a short visit.

Forest Ranger Frank W. Meggers made a business trip to Sacramento Sunday.

Miss Doris Nightengale, school teacher of Alleghany, was in town Saturday on a short visit.

Earl L. Cleveland left Monday for Sacramento after a short visit here.

Rex Bowles, who has been in the garage business here for the past year, left Tuesday.

Forest Ranger Chester H. Anderson motored to Nevada City Tuesday on official business.

Mrs. F. S. Labadie left Tuesday for Sacramento on a short visit to Mr. andMrs. W. S. Goldthwait, who are ill at the capital city.

William O. Grant left Tuesday for Oroville on a short visit to relatives.

William Weilan, who spent a month visiting the Peterson family, left Sunday for his home in Berkeley.

N. A. Parsons passed through town Tuesday enroute to Alleghany.

Dr. M. Morris of Berkeley was in town Sunday on a short visit to friends here.

SOCIAL AT SWEETLAND WAS MUCHLY ENJOYED

FRENCH CORRAL, Feb. 25, (Special to the Nugget) — We haven't yet recovered from our surprise over the wonderful success of the Valentine Social held at Sweetland, the night of Feb. 18th. It was certainly a success both socially and financially. The chairman of the committee informs us that nearly the sum of $80. will be turned in for the S. J. R. W. U. A.

Driving through that quiet and deserted looking little place, one could hardly believe such wonderful results could be obtained. But let me tell you those good people of San Juan Ridge are staunch and true, and when they setabout doing things they will spare no effort.

Early in the evening a play, entitled, "The Last Day of School at Cabbage Hill" was presented. This was quite laughable, as the characters were taken by adults instead of children.

After the play the hall was made ready fo dancing which was continued until a late hour. Refreshments were served at midnight.

A fortune telling booth was conducted during the evening and here many learned what the future held for them.

Another catch penny game was the Mystery Box on which chances were sold. George Thomas of San Juan held the lucky number and on opening his box found a nice cake.

Several donations were received by the committee from friends of the worthy cause for all of which they were very thankful.

We are pleased to note, that Mr. and Mrs. Fred Conner of Sacramento are spending some time at their summer home in Sweetland.

Mr. and Mrs. Proom of Sweetland visited French Corral Sunday.

Mr. and Mrs. Eddie King and children of Sacramento visited relatives in French Corral this week.

Miss Frances Moulton, who is attending school at Mt. St. Mary's, Grass Valley, spent Washington's Birthday with her parents.

The many friends of Mr. Ernest DePrati will be pleased to learn that he is improving in health, and able to be around again.

Mrs. K. Sullivan was a visitor to Sweetland Monday.

After a long spell of pleasant weather, we were treated to rain showers last Tuesday.

Several mining men have visited this place in the past week.

The many friends of Mrs. W. E. Moulton tendered her a miscellaneous shower Wednesday evening. The event was held at Sweetland as it was the most central point. It was a complete surprise to Mrs. Moulton and for a time she was completely overcome with emotion. When she recovered, she responded to the well wishes of her many friends and the evening was spent in singing and games.

Mrs. Wm. Gianella of Marysville accompanied by her mother, Mrs. Jos. Griffin of Yuba City, motored to French Corral Thursday. They were charmed with the beauty of our part of the country.

We read with interest the letter of Mrs. M. Fenton, who recently paid a visit to her old home at French Corral. Her description was quite true, but she has forgotten the age of some of our orange trees. They are pioneers and for more than sixty years have been producing their luscious fruit.

Fuller's earth with local names is found in Butte, Amador, Kern,, Calaveras, Lake, Los Angeles Riverside, Solano, Sonoma, Inyo and San Bernadino counties. The first production was in 1899 and since that time 33,207 tons have been mined, valued at $440,000.

As is the case with most of the other industrial minerals, fuller's earth must be properly prepared for use. It is dried and ground to powder for sale. For decolori ing oil it is then treated with sulphuric acid and the acid soluble impurities eliminated. The clay is then washed and drained, and ready to be placed in agitators with the oil to be decolorized.

Because of the increasing use of oils and other new uses now being developed it is probable that the demand for fuller's earth will increase and warrant the development of known California deposits.

WELDON TRAPS COYOTE IN THE TYLER SECTION

TYLER, Feb. 25, (Special to the Nugget) — Father O'Rilley celebrated mass in Cherokee Sunday.

Mr. and Mrs. R. McNamara and Eloise Phelan were visitors in Nevada City Monday.

Quite a few from here attended the dance in Sweetland Saturday All report as having a good time.

Mrs. W. H. Hustler of Columbia Hill was visiting Mr. and Mrsfl R. McNamara over the week end.

Mrs. M. Hugo and son and daughter of Tyler were visiting the Coughlan family at Columbia Hill Sunday.

Frank Murphey of Montezuma Hill has gone to San Francisco to visit his sister, Mrs. W. Provis, and to see his cousin who has just arrived from the east, and whom Mr. Murphy has never seen.

Mr. D. Weldon at the Luts place caught a large coyote in his traps Sunday. Mr. Weldon should be given a gold medal by the farmers and hunters as he has killed more chicken hawks than any one around here. It help sthe chicken crop and also the young quail as Mr. Hawk is very fond of both. Some of our neighbors have lost as many as 60 little chickens last summer from those pests.

The folks from Tyler who attended the shower for Mrs. Moulton at Sweetland Wednesday night enjoyed it and hope before long to see Mr. and Mrs. Moulton in their new home

Mr. Frank Biglow of the Sbieria mine at Badger Hill has returned to his home in Oakland. His son came up after him. Mr Biglow's health is not very good.

Mr. M. Hugo and daughter from Oakland are visiting Mrs. M. Hugo at Tyler. They will return to Berkeley Sunday.

Tests also indicate that the bentonite of California, which comes from Inyo County largely, has a use in the manufacture of cements, plasters and ceramics. Horticultural sprays, animal dips, explosives, emulsions and fertilizers may also use bentonite as an ingredient.

Only 9,098 tons were imported last year, and the foreign product cannot compete with the domestic supply.

Miss Minnie Brand is spending some time in Sacramento visiting the R. W. Gaylord family. It is hoped that she will be much improved in health on her return.

Mrs. James Dillon is home again after a visit of several months in the bay cities.

LINCOLN PLACERS WILL START AT DOWNIEVILLE

DOWNIEVILLE, Feb. 25, (Special to the Nugget) — Chas. E. Herron of the Lincoln Placers Inc., and C. A. Bouchard of Alaska spent last week here in the interests of the Lincoln and Eleanor Mining Companies. Mr. Herron stated that the location of the Piety Hill flume-line, to bring water to the company's hydraulic ground at Downieville, would be started within a month. The Eleanor Company's ground at Mugginsville will be worked as soon as water starts.

DOWNIEVILLE LOCALS

Wm. Bosch and W. A. Cook are removing the old lead pipe line that for over sixty years has supplied the business houses of Downieville with water, and are replacing it with new iron pipe. The work is being done under the supervision of Fire Commissioner F. Bosch.

Reports have been received from Sacramento that Mrs. A. A. Meyer, who has been dangerously ill at a hospital in that city, is greatly improved, and every hope is entertained for her complete recovery. A. A. Meyer, local garage man, is in Sacramento with Mrs. Meyer.

S. N. McCormick has completed the rewiring of the Court House, and is stringing new wire in the District Attorney's and County Clerk's offices.

P. W. Smith is in Oakland on a business trip.

Wm. Groh and Ralph Strehl are finishing the interior of Judge Eng's home on Commercial Street. The entire interior has been remodeled, and newly painted.

The Downieville Restaurant has a new spring dress of paint, which with the new porch, greatly improves the appearance of Main Street. Other business houses are expected to join the dress-up movement attest-the general prosperity of the town.

County Clerk H. E. Quigley and Mrs. Quigley are in San Francisco on a vacation. Mr. Quigley will attend the County Clerk's convention at that City and he and Mrs. Quigley will spend some time visiting with their daughter, Mrs. Martin Miller, in Sacramento and sons, Edwin and Harry Quigley in Richmond.

H. T. Wilkerson, and engineer from Los Angeles, were in town last week examining the Arnold placer ground below Goodyear's Bar.

ALBERT BUFFINGTON PASSES

Albert G. Buffington, a native of this city passed away early the past week at his home in San Francisco where he had made his home for many years. He was the son of Mrs. Hattie Buffington of this city and was past 49 years of age at the time of his death. He had been in ill health for the past two years. Surviving are the wife and one son Mason and two sisters, Mrs. Mary B. Jaynes of Nevada City and Miss Edna Buffington of Oakland; five brothers, Rolfe and Foster of Nevada City, William of Auburn and Jack and Ned of San Francisco.

Venires of trial jurors have been drawn in superior court to hear the cases of William Southern and Schmidt and Williams, which will come up March 6th and 7th.

Judge George L. Jones has returned from a business trip to the bay cities.

M. E. CHURCH, NORTH SAN JUAN IS FIXED UP

NORTH SAN JUAN, Feb. 25, (Special to the Nugget) — Mrs. Victory Regga and daughter, Elvera, and Lester Martin were visitors here Saturday from Sacramento. They are former residents.

John Kelly of Moonshine Creek was a visitor here Friday for a few hours.

Mr. and Mrs. Acton Cleveland, Earl Cleveland, and John Lord of Camptonville visited relatives here Sunday. Mrs. Rose Pengalia and daughters, Edith and Irma, and sons, Lawrence and Bart, Jr., were visiting here Sunday from Sacramento. Mrs. Pinaglia is a farmer resident and it seemed good to have her here again.

Joe Lavezzola and Evan Thomas of Downieville were business visitors here Sunday for a few hours.

Mrs. W. Washburn and son and daughter-in-law were visitors at Sweetland Sunday evening.

Mrs. Ernest Solaro and son, Philip, were business visitors at Sacramento Sunday and Monday.

Mr. and Mrs. Frank Harris went to Nevada City Monday on business.

Mr. and Mrs. Bain Crawford were visitors at Smartsville one day this week.

A very enjoyable social and dance was held Saturday night at Sweetland under the auspices of the S. J. R. W. U. A. A fine program was rendered and afterwards the floor was cleared for dancing and at a late hour Sunday morning all departed for their homes declaring they had a wonderful time and all are looking forward to many more such wonderful events. A very neat sum was taken in to be added to the amount.

Mr. and Mrs. A. Gilmore of Pike were in town one day this week.

Rev. H. H. Buckner of Nevada City is spending a couple of days in town supervising the work that is being done on the church. The ladies are serving lunches at the parsonage for those that are helping work at the church. The M. E. church is an old time land mark and it is being all remodelled and being repaired. Later on it will be given a new coat of paint inside and outside which will add to the appearance if it greatly.

William Lacklin was a County Seat visitor ont day this week.

Henry Zurhurts was a visitor at Nevada City during the week.

Mr. Clifton of Freeman Crossing was in town on business one day this week.

Willis McPhearson came up from Sacramento Saturday evening to attend the dance at Sweetland.

Mr. Ernest Prince House and aunt of Oregon were in town Sunday. They also attended the dance at Sweetland Saturday night.

Mrs. E. Adams and son, Edwin and friends of Nevada City were over Saturday evening.

Others from Nevada City who attended the entertainment Saturday evening were. Mr. and Mrs. J. J. Jackson Mrs. Chas. Elliot and mother. Mrs. R. E. Harris.

Carl Foote and Mildred Reader were visiting friends here late one day this week.

E. Clymo and Jesse Nelson of Sweetland were in town Monday on business.

A number of people from Marysville and Yuba City were visiting here Wednesday.

Frank Wood and Ernest Collin of Sweetland were visitors here Tuesday for a few minutes.

Mike Denike and Henry Huckins went to Jones Bar Wednesday to look after cattle and other interests.

Miss Lucille Fogarty returned home Tuesday night to spend a few days visiting her parents, Postmaster and Mrs. K. J. Fogarty of Main St.

Misses Frances and Louise Moulton were in town from French Corral Tuesday evening.

Sunday guests of Mr. and Mrs. Frank Davies were Mrs. Ann Davies Miss Ann Davies and Mr. and Mrs. H. Becknell of Marysville.

The Grass Valley police force dumped out 150 gallons of wine into the gutter one day the past week which had been taken in a raid.

NEVADA CITY TEAMS SUB LEAGUE CHAMPS

Two of the most exciting games ever played in Nevada City was held in Redmen's Hall Friday night.

The games started with a rush the local "A" teammaking a driving attack on the Courtland squad. George Hegarty, crack forward, played a brilliant game from start to finish making him the star performer of the game. In the first half Nevada score stood 29 to 19. At the third quarter Courtland rallied and it proved to be the warmest period of the game. The local boys lost some points but held up with one point in their favor at the end of the quarter.

The local boys were hard pressed in the final and came strongly to the fore winning the game by a score of 28 to 32.

The "B" team waged an offensive battle from the first and the Courtland team were doomed from the first. The local nimble footed five carried the ball into enemy territory and shot baskets from any angle with heavy guarding from the other side. In the first quarter the score stood 29 to 3. in favor of the local boys. "B" squad substitutes carried on the same offensive tactics and proved to be nearly as good as the first stringers. When the final score was counted they stood 50 to 12 in favor of our proud blue and gold five. Charley Hing, "B" center was a whirlwind of action and displayed fine control piling up twenty points for the locals.

Through their double winning last night the Nevada City lads have made another advance toward the Inter-League championship.

The hardest fought battle will be waged next Friday night when Auburn plays the local "A", "B" and "C" teams.

The blue and gold proved last Friday night that they were the winners of the Sierra Foothill sub-league championship.

The boys have defeated Elk Grove, Courtland, and Grass Valley and now their chief worry will come next Saturday with the teams from the Auburn high school. Nevada City is entitled to title bouts with Auburn for the championship Inter-league. It is almost certain the local boys will win and in this case there are other championship teams to play.

Referee McKibben of Sacramento rendered decisions in a fair and square manner. The stormy weather kept the attendance down Friday night, but it is hoped that Saturday's game will be well attended when the most thrilling game of the season is scheduled to be played.

Mrs. Emma Coombs, formerly of Truckee, passed away at the county far mthe past week.

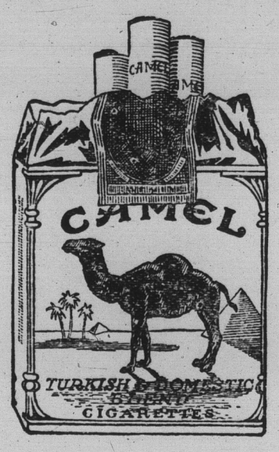
There was a small outbreak of smallpox at Truckee last week.

The Nevada County Half Century Club will hold its annual dinner on next Sunday.

J. F. Colley recently visited his son Ellsworth Colley at Tudor. He was accompanied by Miss Winnie Mulloy.

Subscribe for The Nugget.

If you smoke for pleasure



People might smoke some cigarettes for a lot of queer reasons, but they certainly smoke Camels for pleasure. And they smoke more Camels by billions.

Camels

SALES SENSE SUGGESTS

TELEPHONE Convenience

Calls to customers off the beaten path bring business and good will, save time and expense.

The thoughtful call between trips keeps fresh that personal contact of salesman and customer.

The occasional call from the sales manager or other executive of "the house" emphasizes the value of that customer's account.

Checking deliveries, tracing shipments, adjusting complaints, or in fact *anything* that can be done in person can be done *better* by telephone—because it's *quicker* and *costs less.*

The many new and practical uses of telephone service as a business tool will be cheerfully discussed with you upon application to the business office of the telephone company.

Extend your market— by telephone

THE PACIFIC TELEPHONE AND TELEGRAPH COMPANY

YOUR RAILROAD IS AN ASSET THAT CANNOT MOVE AWAY AND LEAVE YOU

In its tracks and ties and rolling stock, property owners see security of the county and permanence of real estate prices.

A railroad can have no "fly by night" characteristics. Nevada County Narrow Guage is here to stay, with the patronage of the people who are supporting it. The many thousands of dollars it represents are definitely invested right here in these communities.

This investment in the community matches your own. Further, it helps to safeguard your own investment here against bad times. And further, it provides transportation which increases the value of your investments here. It protects your home and your job.

Adequate, dependable, low cost transportation is vital to progress. The mines are dependent upon a reasonable, dependable transportation service that will meet their needs. Only your railroad can do that consistntly and at low cost. That is one reason why it is vitally necessary to.

That is why your support of the Narrow Guage will insure the value of your investment here. Insist that the goods you buy come in by rail. See that you yourself ship by rail. You will save money in transportation charges. And you will protect an investment most dear to you.

The railroad cannot share its business with any other means of transportation and live.

When someone tells you that you can take two away from four and still leave fou, he either doesn't know what he is talking about or is underestimating your intelligence.

Thirty eight employes help to support the city in which they live.

THE NUGGET PAGE OF MINING NEWS GATHERED FROM OVER CALIFORNIA

CHEMICALLY PURE GOLD ORIGIN IS REVEALED

(Communicated)

The purity of the gold from an assay of ore from the Dipper Consolidated claims at Red Ledge in Sierra county, as might have been expected, caused considerable doubt in the minds of a few "punkin heads" and wiseacres, following the announcement made in The Nugget two weeks ago.

The district as a whole has not been profitable but a change has occurred. The vein system passing through the Dipper and adjoining ground gives promise of developing into producing mines through persistent prospecting and the only way in which to prove the value of mineral land.

Mrs. E. E. DeWein has held this ground since 1916, performing the assesment work regularly anl now, it would seem is about to receive her reward for many years of perserverance. It should also be said that she is the only woman in Nevada county who takes a direct interest in mining—the source of all our metallic wealth.

Considerable prospecting has been done over a period of many years. Recent work consists of a tunnel about 105 feet with a drift of 185 feet. The sample which has caused so much controversy came from a point about 145 feet in this drift. The walls appear to be a serpentine slate hanging and porphyry foot wall. The vein system is stratified with strata from 1½ to 4½ inches wide and undoubtedly they will unite in a solid vein in depth. So much for that.

Now in regard to the remarkable fineness of the gold. Nature plays many pranks in the different formations of this earth, no less so in the mineral kingdom than in just plain common rocks. Ores are of every conceivable kind. Some metals are well alloyed with two or more. Others like lead and copper are frequently found practically pure. Likewise gold which rules this earth, has varying degrees of purity. At differenti times during the past 45 years one reads of some mine carrying ore assaying $20.00 or thereabouts per ounce. Occasionally around $20.30 or $20.40 per ounce. Admittedly high grade gold and whenever those facts become known, the information was siezed upon and broadcasted in the mining press. It was and still is unusual to find $20.00 gold.

Not long ago a sample of ore from the Dipper Consolidated was given to Mr. G. B. Phillips, the well known and competent assayer for the California Mac Van Company of Sacramento. To the surprise of all, he certified that that sample yielded one ounce per ton of the value of $20.67! The silver present was almost negligible. What little there was not worth calculating. Just think of pure gold in nature and worth $20.67 an ounce, for that is all that pure gold is worth. It is certainly an extremely rare effort of

PAINT PIGMENTS OFFER AN ALLURING PROSPECT

The highly mineralized zones in Nevada, Shasta, Trinity and Siskiyou counties may some day furnish a large portion of the world's supply of paint pigments. Other counties in Superior California may also have depostits of these minerals suitable for development.

The Democrat mine near Alta operated by the Glidden paint people, has a fine supply of barytes which is being made into a superior grade of paint and proves that Nevada county has other metals besides the precious yellow gold. The old copper mine dump near Spenceville is also furnishing material for paint and in the vicinity of Alpha red and yellow ochre is being mined for paint making.

The study being made by the mines department of the Sacramento Chamber of Commerce is being made to aid and encourage prospecting for some of the many industrial minerals needed for the fullest development of manufacturing in this great state of ours.

There are five main requirements for the successful mining and marketing of the pigments. The material must contain the material desired in large quantities and of the color and substance desired; the material must be uniform in coolor and texture; the deposit must be so situated so that transportation will be available; the material must be of a quantity that can be used without washing; the deposit must be easily and cheaply mined. On the requirement of uniformity of color, texture and substance have most of the attempts to mine pigments in California in the past, fallen down.

Pigments come from three sources. There are the chemically manufactured pigments such as chrome yellow, Prussian blue, etc.; the pigments made from residues of ores such as zinc oxide and white lead, and the natural mineral pigments such as ochres, umbras and siennas. This article will deal only with the latter group.

For the trade, these natural paint pigments are classified according to color and run from red to yellow, green, brown, black and orange. The color in most cases is due to iron content.

The most important of the pigments is the mineral red or Prince's Metallic, as it is known to the trade. This is the paint which goes on boxcars, bridges and rough work and the brick color is standard. It is known in the mineral as limonite or hydrated iron oxide. Hematite of iron oxide is also used for the same purpose. There are deposits of hematite and limonite in many places in California which await development.

These materials must however, be further processed in order to be acceptable to the paint makers, who buy the refined product rather than the raw mine run. Owners of deposits have failed to market their pro- [illegible] in the past because of their [illegible] he pro- [illegible] he pro- [illegible] also be [illegible] ust be barrel- [illegible] niform. MINING COMMISSION IS PROPOSED BY STEVENOT

Director Fred Stevenot of the state department of natural resources, has in mind the formation of the California mining commission, particularly designed to serve a much neglected industry of California, but which has an annual production record of near half a billion dollars.

Stevenot's idea is to have it function along the lines of the state highway commission in an advisory capacity to the director of the department. Governor Young is said to look with favor on the proposal and it is expected that the matter will be taken up actively at the 1929 session of the state legislature.

In an interview Stevenot says: "California produces a larger number of mineral substances, commercially, than any other state in the Union. In recent years, the number of substances, exclusive of several grouped as gems, has totalled around sixty.

"Gold, of course, still continues our most important metal, and California leads the nation in the annual yield of the precious yellow metal, accounting for nearly 30 per cent of our domestic gold annually. California's total gold to date shows a value of more than $1,800,000,000 which if gathered together in one lump, would make a solid cube, nearly 17 feet in extent."

FULLERS EARTH COMING IMPORTANT PRODUCING

The production of fuller's earth has grown to be a sizeable industry in California in recent years and the uses and demands are constantly growing. Last year the output ran close to $100,000 in California, with a little over 5,000 tons mined. The California production, however, is only a small part of the national production, of 234,162 tons and the bulk of fuller's earth now comes from Georgia, Florida and Texas. Last year the average price was $14.33 per ton, which was a little better than 1925, when it was $14.15.

The term Fuller's earth has come to cover a variety of clays and there is no specified chemical composition for the product. The main requirement is a physical one and the fact that a clay will do certain work entitles it to be classed as fuller's earth. It is usually a soft, friable, earthy, non-plastic, white and gray to dark green in color. Its original use was for fuling wool, from which ability it takes its name.

It is used for clarifying fats, greases, mineral and vegetable oil. It is also a pigment for painting wallpaper, for a substitute for talcum powder, a poultice in medicine and an antidote for alkaloid poisons. Some is used in the manufacture of soap. The only test of fuller's earth is to try it for the above purposes, and if it works satisfactorily it has a market.

Colloidol clays coming under the classification of fuller's earth contain such local names as 'Bentonite,' 'Otaylite' and 'Shosonite.' The greater part of California's production is used locally in California for the decolorizing of petroleum and the oil companies own their own deposits.

TRINITY COUNTY

Ed D. Westbrook, Jr. has taken a bond and lease on the Dutton Creek group of four placer mines near the famousL aGrange hydraulic property. Development work is to be undertaken at once.

TUOLUMNE COUNTY

A five stamp mill is being erected at the Tapie mine where a $1000 pocket was recently found. The mill is being taken from the Huston property near Rawhide.

BITS OF HUMOR

Nothing makes some women madder than for their husbands to admit they are wrong without giving them a chance to argue about it.

The report that Trotsky is coming to the U. S. ought to give us a chance to see how well our immigration laws work.

From the way they go at it, some Nevada City girls considering powdering their nose as important as scratching a bite.

What has become of the old fashioned Nevada City man who always wanted to settle his arguments with his fists?

That government employee who has raised 20 children on $85 a month ought to be moved over to the budget department.

NEW MINERAL CALLED RASORITE IS EXPLOITED

California has disclosed an entirely new mineral, named rasorite after its discoverer ,well known as a borax engineer. It is a tetra-hydrate of borax, and 8 millions tons of it are said to lie in Kern county.

According to Science Service, it promises to cheapen borax, and to greatly extend the use of unbreakable borax glass of the kind known as pyrex. Ordinary glass breaks because it has a high coefficienct of expansion. Glass made from quartz has a low refractory ,however, melting only at a very high temperature. When borax is used with the quartz, we get borosilicate glass or pyrex.

This vast deposit, enough for 50 years, will give us enamels and oth er products. In glass, it should give us unbreakable fruit jars, milk bottles ,tumblers, carafes and a multitude of everyday things. (Tron Pot Ash.)

MONO COUNTY

Unwatering of the old Noonday, Red Cloud and other mines near Bodie is being undertaken by C. C. Julian of Los Angeles. The entireeq uipment o fthe Leadfield mine nea Beatty, Nevada, is being transported by truck to the properties, a distance of 575 miles by way of Goldfield and Tonopah. There is a 125 horse power diesel engine and a 625 foot air compressor and other equipment which will be set up.

MARIPOSA COUNTY

Much of the surface plant of the Mother Lode Extension mine near Merced Falls was recently destroyed by fire. The machine shop ,hydraulic pump and other equipment was burned. The property is being operated by F. F. Lautenschlager.

A rich shoot of ore is reported at the Buena Vista mine in the Saxon Creek district. The strike is said to have been made while driving the tunnel ahead. Miss Bele McCord Roberts of Long Beach, newspaper woman, haeds the company developing the property.

A rich vein is reported struck in a properyt on Sherlock creek being opened up by Robert MacLean and John Noble. The property is a former producer. The mine is to be reopened and retimbered.

SHASTA COUNTY

H. C. Austin of Oakland has commenced suit in federal court against A. D. Joyce of Cleveland, president of the California Zinc Company at Bully Hill ,alleging that $13,716 is due him for royalties on mining production. Austin charges that he sold certain mining properties to Joyce and in addition to the purchase price was to receive a 10 per cent royalty on all barium ore taken out. The properties in question are near Heroult.

R. L. Hussey who recently acquired the Greenhorn copper properties is now making his first trip to the property. He expects to install a 50 ton flotation plant as the first unit and this will be gradually increased as production gets under way Hussey bought the property at bankruptcy sale following the failure of E. G. Lewis, of Atascadero notoriety. Tunnels and drifts in the property total two miles and it is stated that several hundred thousand tons of ore have been blocked out.

Budweiser

Real Quality Malt Syrup

Backed by a $40,000,000 plant

Behind Budweiser Real Quality Malt Syrup is a $40,000,000 institution which includes 110 separate buildings and covers more than 70 city blocks.

Every operation is completed by automatic machines under the watchful guidance of America's foremost maltsters. And every can is backed by a name and label that have meant top-quality the world over for more than 70 years. When in St. Louis visit our plant.

A QUESTION FOR EVERY TIRE BUYER

When claims conflict—when all tire manufacturers use the same argument—when every sales scheme has been tried on you—when you have discovered byexperience that "the road test" is THE ONLY TEST, ask yourself this vital question:

WHY DO MORE PEOPLE BUY GOODYEARS THAN ANY OTHER KIND?

Goodyear has been supreme for ten years.

Goodyear makes far more tires than any other tire builder.

Goodyear Tires out-perform others on the road.

Goodyear does not cut prices or quality. A fair price is asked for the concentrated effort of the world's greatest rubber manfuacturer.

Goodyear Service is friendly, expert, interested. It insures you full mileage.

Why has the largest group of car owners in the world bought over one hundred million Goodyear Tires? We have the answer. Let us give it to you.

GRASS VALLEY CHAMBER PASSES RESOLUTIONS

At a largely attended meeting of the Grass Valley Chamber of Commerce held last week, full endorsement was given to the Nevada County Narrow Guage Railroad to continue its existence in the threat of posible freight truck competition.

After the meeting had been opened by President J. E. Gooding, the floor was given over to President J. Earl Taylor of the railroad company who told in detail the troubles the company was gradually overcoming in its desire to serve Nevada county and the up country and that given the proper measure of support it would continue to do so. His remarks were listened with a great deal of interest.

Two resolutions were passed having to do with commending the present status of the railroad and avoiding any freight competition it might have to endure in its struggle to maintain its existence. The resolutions were enthusiastically and unanimously passed.

F. H. Dependenner. Placer county deputy sheriff was killed and sreriff Elmer Gum was injured when near the Wise power house last Monday night, a machine locking wheels with their car which was returning from a booze raid. The sheriff's car went into the ditch.

Mr. Penrose motored to Sacramento Friday evening and returned with Mrs. O. A. Corsair of Paradise, Montana. She has come down for a visit with her aunt, Mrs. Penrose and family.

Mrs. John M. Cooper is home again after a visit of some time with relatives at San Jose, San Francisco and Oakland.

Mrs. Clayton A. Bennett has as visitors at her home her brother, Henry Brown and wife and daughter from Reno.

Mr. and Mrs. F. Thompson and son, Robert, visited our town this week.

Mr. and Mrs. C. Thompson and son, Harry, of Camptonville visited relatives here Sunday.

Mr. and Mrs. Walter Hegarthy are at home again after a honeymoon spent in other parts of California.

Mrs. Ella M. Austin, Superintendent of Schools, was a business visitor here one day this week. She was visiting our schools and was accompanied by Mr. Moody.

Mr. H. J. Wright, who has not been feeling very well, left for Hayward last week where he will visit with his son, Harlan Wright and family.

ATTENTION, MASONS

There will be a school of instruction for the officers of Nevada Lodge next Wednesday evening, conducted by our Inspector, W. J. Merrifield All officers expected to attend.

J. F. Stenger, Secy.

RAILROAD OR TRUCK

Publisher The Nugget:

Will somebody please page Aimee? Another miracle is about to be enacted right here in Nevada County. Schneider Brothers, masters preeminent of the trucking business will not only buy our little old Narrow Gauge, but they will actually make it prosper right before our eyes by adding a competitive trucking line over the highway—and all without in any way jeopardizing the railroad.

Perhaps, after all though, we had better page Ananias, for he will be the better one to pass on this startling offer. What a lot of pin heads we have been up here all these years not to get onto this before. Haven't we seen the Narrow Gauge trains loaded with passengers every trip? Sure we have. That's where the money is, of course, in the passenger business.

Can't you see that if Schneider Bros. wizards of trucking, relieve the congestion of freight by putting on a line of trucks it will give the railroad a better chance to haul passengers, and they might even get out those old canvas-covered picnic cars again and bring back to us those joyful days when we got our eyes full of cinders and our pants full of slivers as we rolled merrily along to the picnic at Chicago Park or the circus at Colfax.

We dislike to say it, but the management shows a laxity of judgement that is appalling. George, Where are thou and what's wrong with thy belfry that thou lettest slip these great opportunities for riches?

Every few months the people of these communities are called upon to protest the application of some trucking concern intent on undermininw and destroying our railroad service. Again and yea again, the Narrow Guage, which has been barely able to maintain itself through the cooperation of the merchants, is called before the railroad commission to fight for its very existence. Indeed, at that critical time even, when it looked as if the road would be abandoned on account of this leech-like competition, these same gentry were busy trying to make certain its ruin by making clandestine offerings of contracts with merchants, when the railroad had its rfanchises and was handling the business satisfactorily. It was only when the people became aroused to the danger of losing their railroad that practically all of the merchants came to the rescue and agreed to ship by rail.

"Be modern, and ship by truck" That's their slogan. This modern stuff though, consists in blocking traffic with trucks nearly as large as box cars, which break and damage the highway with their heavy load more in one trip than the passage of fifty ordinary cars would do in a month. Their right-of-way is the paved roadbed that you and I—yes, even the poor old Narrow Gauge, builds and keeps in repair for them.

The Narrow Gauge, on the other hand, has built and maintains its own right-of-way. It pays 5¼ per cent in taxes as against 4½ per cent by the trucking interests and it maintains directly, or indirectly SIXTY EIGHT PEOPLE in this county.

The trucking interests have nothing to offer outside of breaking up our highways. Their gas and oil would be bought in Sacramento and their drivers would undoubtedly bring their lunch along on the trip, so that, all in all, they would probably be as much benefit to the community as the Scotch tourists that bargain at Shaws fruit stand for five cents worth of mixed fruit.

Then again these trucking gentlemen are somewhat particular about the class and shape of freight they handle, so they have a higher rate on bar steel and steel products, with the result that the railroads are given the privilege of hauling this material.

It is nice of course, to have these fair-weather conveniences but sometimes it is pleasant to have the good old railroad to fall back on. The other day, when snow was falling and the weather generally was quite disagreeable, the Narrow Gauge had a sudden large increase in passenger business; several people seemed to have but one impulse and that was that it would be much more comfortable to ride in a clased coach kept comfortably warm than to be exposed to the chill air of a bus.

There is mavement on foot at the resent time to bar the hauling of owder by trucks on the state highays; this rule will undoubtedly be nforced, as it should be. We, of the vin cities, are almost wholly de, ent upon the mining industry, and e are going to be for a long time o come.

Wine used in the cyanilling of ... now brought in for $5.70 per ton from Sonora. Will your trucking interests give that rate? I don't think so.

If the railroad is compelled to quit business, powder will have to be hauled by truck from Colfax; so here is steel and heavy machinery, powder and lime, three vital items in mining which would be sadly hampered without the railroad. As for the farmer, do you know that he ships a ten galion can of cream to Sacramento and has his empty can returned for the small sum of 34 cents.

The truck people say they are willing to buy the securities and property of the Narrow Gauge for what it cost the present owners. Yes, we know you are; and we also know what the financial result would be—the railroad would be junked. Furthermore, when the statement is made that "the present rail service will not be jeopardized if truck service is inaugurated" and that "the two will work in harmony for the betterment of the community", these people are trying to mislead by stating that which, on its face, is deliberate falsehood. It is patent to anyone not an imbecile, that without the freight now handled by the railroad, through cooperation of our merchants, the road could not possibly exist, and such statements and promises as these are false, misleading and ridiculous and I believe will only serve to more surely unite the people of these two communities against this proposed aggression.

So far as we are aware there is no complaint as to our rail service here. We get good mail service three times daily and as good freight service as we can expect. Better service to coast points is possible, but this is a matter entirely in the hands of the Southern Pacific.

There is not, to my knowledge, anywhere in the west, two cities having the population and resources of Nevada City and Grass Valley, but what are connected by rail with the outside world. This country has been built up by railroads; they pioneered the way into this western wilderness and civilization followed.

Neither highways nor the trucking business have reached that stage of perfection as yet where we can afford to isolate ourselves by the severence of our rail lines—such a thing is simply unthinkable. So, we of Nevada City again say to our knights of the truck, who persistently seek to force upon us that which we have most emphatically said we will not have and do not want, "Keep out, and stay out".

Edw. C. Uren.

ROYAL ARCH OFFICERS ARE WARMLY GREETED

In one of the largest meetings of Royal Arch Masons ever held in the 7th District comprising Nevada and Placer counties, two of the ranking state officers were given an enthusiastic welcome in the local Masonic Temple Monday evening. The Grand High Priest, James B. McLees of San Diego and D. B. Richards of San Francisco, Grand Lecturer, stated that it was one of the finest district meetings held in the state this year, both in point of attendance and intest shown. Following a banquet served at 6:30, the officers of Nevada Chapter opened chapter to officially welcome the distinguished visitors together with the ranking officers of the five chapters of the district. Following the ceremony of reception, the officers of Grass Valley Chapter were installed as follows: W. J. Merrifield, High Priest; F. W. Bennallack, King; A. B. Adams, Scribe; Thomas M. Harris, Treasuer; C. A. Harris, Secretary; Philip Keast, Captain o fthe Host; John T. Jones, Principal Sojourner; E. S. Matteson, Royal Arch Captain; P. H. Oates, Master 3d Vail; Wm. Gribben Master 2d Vail; George W. Zembsch, Master 1st Vail; John T. Leatham, Sentinel.

Mr. McLees gave an inspiring talk that was listened to with a great deal of interest as was that by Mr. Richards, Past Grand Master George L. Jones, Senator Thomas Ingram and others.

Delta Chapter of Auburn was represented by practically its entire personnel of officers and a number of members. Colfax, Truckee and Downieville Chapters were also represented.

A. J. Lohman came down from Pike Saturday. He was accompanied by his sister, Miss Mae, who will remain here for a few weeks.

Miss Lillian Vaneduff of Sacramento left one day this week for her home after spending a few days visiting friends here.

A. R. Farmer who is working near Downieville was down several days the past week with his family.
